PRESSFIX

Brand: ProClima
Product Code: 11426
Weight: 2.00oz
Dimensions: 3.00in x 4.00in x 0.20in

Price: $1.75

Short Description
Tape application tool

Description
Applications

Tape application tool made from flexible plastic for uniform pressing of pressure activated adhesive tapes to substrates.

Dimensions

3" x 4"

Advantages

- The tool can be used to provide sufficient pressure to get the optimum bond with Pro Clima tapes. It will prevent your hands from getting sore and/or hot while rubbing down long stretches of tape.
- Tool can be used to adhere TESCON PROFIL into 90-degree corners of window frame and airtight layer connections.
- Used to apply even pressure to taut vapor retarding membranes (INTELLO PLUS or DB+) while adhering them with TESCON VANA.
- Windproof or rainproof bonding overlap of the weather resistive barrier/housewrap (eg SOLITEX MENTO) with DUPLEX, EXTOSEAL or TESCON VANA.
