Short Description

TESCON Primer for wood, OSB, plywood, brick, and concrete (2.5 L)

Description

TESCON Primer-- for adhesion of ProClima products along concrete window bucks, masonry and other materials requiring pre-treatment.

Properties:

- Time saving, no drying needed – Adhesion can occur directly after application to porous substrates
- Penetrates deep into substrates and reinforces it
- Free of solvents
- Quick drying
- Can be combined with all Pro-Clima tapes and adhesives

2.5L can
